

# EASEUS Partition Master 6.0.1 – Newly Upgraded Hard Disk Management Solution Released

NEW YORK, N.Y., July 1 (SEND2PRESS NEWSWIRE) – EASEUS Partition Master 6.0.1, the all-in-one hard disk management solution enhanced by the ability to support GPT disks such as initialize hard disk as GPT disk, manage/resize/move GPT partition, copy GPT partition, wipe and recover GPT disk data etc., is released by EASEUS Software.

The ability to [manage/resize/copy GPT disk partition](#) is a must-have function as the GPT disk format is growing fast in popularity. The new version 6.0.1 of EASEUS Partition Master is following this trend to fulfill its name as the best and all-around hard disk manager to support not only MBR disk, but also GPT disk management.

Besides new manage / resize / copy GPT partition features, EASEUS Partition Master's ability to support a dynamic disk is also booted up: it can now convert a dynamic disk with EXT2, EXT3 and SWAP partitions to a basic disk under Windows environments in addition to converting dynamic disks with FAT and NTFS partitions.

Manage/resize/copy GPT partition is a function which was requested by users, according to the company, and they also said that it implemented their thoughts of providing the best options for users since to manage GPT partitions is a "most wanted function" as per a poll.

While it is already the third upgrade in 2010, EASEUS is very confident that they're keeping up with the customers' requirements as a leading [hard disk management solution](#) provider. Apart from adding the functions to manage, resize and copy GPT partitions and the small updates mentioned above, EASEUS Partition Master Version 6.0.1 keeps its original modules of Partition Manager, Disk & Partition Copy and Partition Recovery.

While EASEUS Partition Master 6.0.1 has all these functions and supports the mainstream Windows operating systems like Windows 2000/XP/2003/Vista/2008 and Windows 7, it remains no more than 40MB in size and the price will stay the same.

## **Pricing and Availability:**

A Web Special \$159 (original price \$199) for Windows Server users is available from the EASEUS Website at [www.partition-tool.com/easeus-partition-manager-server/](http://www.partition-tool.com/easeus-partition-manager-server/).
