

# EASEUS Software Announces Source Code and SDK Cooperation for Developers in Its Data Recovery Technologies Platform

NEW YORK, N.Y., Aug. 11 (SEND2PRESS NEWSWIRE) – EASEUS Software, a leading provider of data recovery, partition manager and backup utilities, today announced that it is now offering business cooperation in Source Code and a software development kit (SDK) for developers to meet the unique needs of different organizations.

Through the cooperation in Source Code and SDK of its data recovery technologies, developers can quickly and easily create their own data recovery applications or integrate its unparalleled technologies into their own products to improve product value and customer satisfaction.

## **Source Code Developers:**

The source code or script segment in EASEUS data recovery technologies is now available for developers with a need for 100% control over their future product and the foundation for future innovations. Training and guidance are supported for your better understanding of the software source code.

## **SDK Development:**

The EASEUS Software Development Kits are primarily intended for partners who need to provide their customers with complete control of their product line. However, potential SDK developers range from hardware facilities producers to software developers where the SDK can help to integrate EASEUS' product features with their product line.

The Source Code and SDK are especially designed for its data recovery technologies and to facilitate the interaction between EASEUS Software and its partners. Developers who are interested in the partition manager and backup technologies cooperation with Source Code and SDK are still welcome. For more information about the Source Code and SDK cooperation, please visit [www.easeus.com/partner/developers.htm](http://www.easeus.com/partner/developers.htm).

"The cooperation in Source Code and SDK in our technologies provides an opportunity for developers to integrate data recovery technologies into their product line for a comprehensive solution to be more competitive. Through this kind of cooperation, we hope to establish a strategic relationship with more and more developers," Mr. Liu, CEO of EASEUS said.

Apart from this, EASEUS Software offers a variety of offerings for its cooperation as OEM Partners, Reseller/Distributor, Affiliate Program and Service Provider. For more information, please visit [www.easeus.com/partner/](http://www.easeus.com/partner/).

**About CHENGDU YIWO Tech Development Co., Ltd.:**
