

Energy Optimizers, USA is Pleased to Announce Hiring of New Engineer

TIPP CITY, Ohio, Oct. 6 (SEND2PRESS NEWSWIRE) – With business success at Energy Optimizers, USA, the firm is proud to announce the hiring of recently graduated mechanical engineer from the University of Cincinnati, Mr. James Bonar. James' final engineering project was designing, building, and testing a wind turbine as a home installation kit.

With a background in engineering and alternative energy, Energy Optimizers, USA was an ideal fit for the recent grad.

Mr. Bonar is now assisting Energy Optimizers, USA with the Mechanical & Energy Engineering support services associated with implementing energy solutions for local k-12 schools such as energy audits, solar thermal, solar PV and wind turbine project installations. James is also working with the Ohio School facilities Commission to implement maintenance plan advisor (MPA) services for Ohio school districts.

"It's exciting to see a local school saving money with the knowledge that is gained by doing the small changes needed for today's facilities. I'm excited to be part of a growing new business that's focused on doing the right thing first with cutting energy before the more exotic measures are taken like a solar electric system or putting up a wind turbine," states Mr. Bonar.

About Energy Optimizers, USA:

Energy Optimizers, USA audits, recommends and executes energy saving changes that make Ohio's schools more efficient, greatly reducing their cost of operations. All across Ohio, Energy Optimizers, USA is taking is implementing energy savings and conservation opportunities with school districts, including wind and solar installations.

Their programs include Energy Savings Projects, Wind & Solar Projects, Maintenance Plan Advisor Services and Energy Efficiency Education and Awareness Programs.
