

# TEM Company TTI Concludes Successful 6th Annual WinBill National User Group Conference

SAN FRANCISCO, Calif. (SEND2PRESS NEWSWIRE) – TeleManagement Technologies, Inc. (TTI), a leading provider and innovator of telecom software products and solutions, completed their Annual WinBill National User Group Conference in San Francisco with much fanfare, awards and product development announcements.

“Since 1987, TTI has been centered on its core belief that the customers’ needs are paramount and our job is to guarantee their satisfaction through our flexible applications and exemplary service and support after the sale,” stated President & CEO Mark Hearn.

This belief resonated at their 6th annual 3 Day Conference held in beautiful San Francisco as TTI was just recently ranked in the Top 3 out of over 100 TEM Companies in the marketplace.

“This conference allows us the opportunity to hear how other companies manage their telecom bills and spend using WinBill so we can identify different best practices and incorporate those into our process,” said one client. “Having companies give presentations on how they use WinBill’s Integration Tools gave us some great insight into ways to automate manual tasks and save resource time,” she said.

TTI announced several new Features to their suite of [Telecom Expense Management tools](#), including new Relationships for automated inventory associations, enhanced Wireless Audit Reports, and new Provisioning and Automated Work Flow processes.

Customers expressed their overwhelming satisfaction with the amount of features and how flexible and robust the WinBill report engine is and how pleased management is with the Data Analytics available.

TTI conducts monthly conference calls with their customers and their National User Group Conference allows Enterprise Organizations with spend from \$1.5 million up to \$180 Million annually to meet in person. Users are given the opportunity to collaborate and hear about new releases and features TTI offers as well as how other companies maximize their return on their WinBill Investment.

“With WinBill’s automation, detailed inventory and audit reporting we have reduced our wireless spend by an average of 12% in the last 24 months,” stated one Telecom Manager.

## **About TeleManagement Technologies, Inc. (TTI):**

TTI, headquartered in Walnut Creek, CA, is recognized as the most experienced

TEM vendor in the marketplace. Since 1987, TTI has demonstrated its ability to quickly adapt and develop solutions for ever-changing telemanagement challenges. TTI's product offerings include WinBill® TEM (Wireline & Wireless Telecommunications Expense Management), WinBill Order Desk, Wireless Provisioning & Help Desk, WinCall® (Enterprise Call Accounting) and extensive professional services that include audit, consulting, and contract negotiations for both landline and wireless communications services.
