

EASEUS Todo Backup 2.0 Beta is Available, Take Part in Beta Testing to Win Awards

NEW YORK CITY, N.Y., Dec. 1 (SEND2PRESS NEWSWIRE) – EASEUS Software, a leading provider of storage management and data backup & disaster recovery solutions for the Windows-based environment, today announces public availability of EASEUS Todo Backup 2.0 Beta. As a successor to EASEUS Todo Backup 1.1, a more user-friendly interface has been developed in this new version with more powerful features to fully protect the servers and PCs and make it an all-in-one backup solution.

EASEUS Todo Backup 2.0 Beta is ready for testing now and we invite you to enjoy the new features during the beta period.

EASEUS Todo Backup 2.0 – which will be released soon – includes three editions: for home users, workstations and server users under Windows-based environments. Brought together are basic functions from the previous version such as hard disk & partition backup and hard disk clone, plus this new version has been developed with more powerful and advanced backup & recovery features to be a more comprehensive backup & recovery solution.

New features in EASEUS Todo Backup 2.0:

- * Fast system backup and recovery with unique Snapshot features;
- * Selective file backup and recovery without recovering entire image;
- * Incremental backup to save time and storage space;
- * Schedule backup and simply create and automate regular backups;
- * Multiple storage places like external hard drive, CD/DVD and even FTP servers;
- * Universal restore to recover system to dissimilar hardware;
- * WinPE recovery & USB bootable disk support ;
- * New user-friendly interface;
- * Better support Windows Server 2000/2003/2008 and Windows 2000/XP/Vista/7;
- * Password protection for private and sensitive files security;
- * Email notification.
