

Best New Treadmill Award – LifeSpan TR1200i Folding Treadmill

SALT LAKE CITY, Utah, Dec. 3 (SEND2PRESS NEWSWIRE) – The LifeSpan TR1200i folding treadmill was named “Best New Treadmill” by Treadmill Doctor in their 2011 fitness equipment reviews. Fitness Professor Review also selected the LifeSpan TR1200i, made by PCE Health and Fitness (www.lifespanfitness.com) as its choice for “Best Treadmill under \$1000.”

After independently reviewing and testing hundreds of treadmills, Treadmill Doctor rated the LifeSpan TR1200i the BEST new treadmill, praising it for quality construction, walking area, and value.

Fitness Professor, also an independent fitness equipment review group, awarded the TR1200i best treadmill in its price range. “The all new TR1200i offers the quality consumers are looking for in an affordable package plus LifeSpan’s wonderful Fitness Club software. A great treadmill and HEAD OF THE CLASS Winner – Best Treadmill under \$1,000.”

Both Treadmill Doctor and Fitness Professor praised the TR1200i folding treadmill for its unique and innovative health and fitness membership included with purchase. The LifeSpan Fitness Club provides members personalized online accounts, used to consolidate and manage all their exercise data and vital statistics in one place. The TR1200i console includes USB technology, allowing workout data to automatically save to a USB device for easy uploading into the user’s account.

The LifeSpan Fitness Club has helped members lose weight, reduce medications, train for upcoming runs, and simply live healthier. Members of the LifeSpan Fitness Club set goals and plan physical activity by creating workout calendars best suited for them. They manually enter exercise data and vital stats, and upload data automatically saved to their USB device. They stay engaged in their health and fitness by reviewing progress reports that motivate them to re-establish personal goals to achieve more.

With higher healthcare costs and obesity statistics rising at an alarming rate, fitness equipment is challenged now more than ever to do more than just provide a good cardiovascular workout. Success with USB technology and health and fitness club software has led LifeSpan to incorporate it into a suite of exercise equipment and health monitors including the LifeSpan blood pressure monitor and digital bathroom scale.

The recent awards from Treadmill Doctor and Fitness Professor Review acknowledge PCE as a leader not only in manufacturing innovative quality fitness equipment, but also in leading the fitness industry to integrate equipment and technology with overall health and fitness management.
