

Ezilon.com Announces Dedicated Site for US Local Directory

HOUSTON, Texas, Feb. 1 (SEND2PRESS NEWSWIRE) – Charles Michaels of Ezilon Inc. announces the company's drive and dedication to supplying the foremost local and regional directory listings is now increased through the launch of its newest site at <http://local.ezilon.com> covering major cities in the United States. With this in mind, Ezilon Inc. doesn't use auto listings as a way to fill its directory. Real people spend real time authenticating these listings for local city directories.

"Whether you are a consumer or business your time will be spent more wisely when using the local search option knowing that the directory has been thoroughly checked," says Michaels.

Ezilon.com has expanded its new website so that less time is spent searching through the web directory by using local directories at the city search level. This means more time to focus on what one wants and less time searching for it. Not only does Ezilon.com offer the ability to search through regional directories but with the new site users can also browse through local listings supporting their area. This can save a great deal of frustration and time.

Ezilon's new local/city directory covers cities like New York, Los Angeles, Chicago, Houston, Dallas Fort Worth, Miami, Atlanta, Denver, San Francisco, Boston – to mention a few. Listing a business with the directory is easy and can be done through both regional <http://search.ezilon.com> and <http://local.ezilon.com> local directories. This can be extremely beneficial depending on the size of the business. Submitting one's business listing is free in the local one, other than for those that wish to place an enhanced listing that typically offer a much higher exposure rate.
