

City of Los Angeles Approves Guardian Pool Fence Systems

VAN NUYS, Calif., March 25 (SEND2PRESS NEWSWIRE) – Steve Sadinsky, President and CEO of Guardian Pool Fence Systems, Inc., is proud to announce that their 5 foot tall polyester mesh pool fence has been approved by the City of Los Angeles to meet the building code. This is the first time that the city has given their approval for such a fence.

They are the only pool fencing company that has put their product through the testing procedures needed in order to become certified. Meeting these requirements is not easily done. “The City of Los Angeles Mechanical Building Code is one of the toughest building codes in the world,” said Sadinsky. “Getting our pool fence approved is a major achievement.”

Guardian Pool Fence Systems invented and manufactures the only removable, climb-resistant gate in the world. Their pool fence structure requirements includes locking sleeves and a self-closing gate. These fence systems are designed to protect small children from getting into the pool area.

About Guardian Pool Fence Systems:

Founded in 1995, Guardian Pool Fence Systems manufactures over eighty models of fencing. They also produce their patented self closing gate that is designed to be climb resistant. To date, they have sold over fifty thousand pool gates and pool fence systems. Guardian and its trained pool fencing dealers have installed tens of thousands of pool fence installations worldwide.
