

# Smartphone Photos Improved with New Invention – Get Your Face In No Matter Where You Are

BUFFALO, N.Y., April 15 (SEND2PRESS NEWSWIRE) – Whether one is mountain climbing in Spain, paragliding in Switzerland or at a family gathering the Quik Pod® Mobile, developed by Fromm Works, allows the photographer to be included and properly centered in photos and videos taken on an iPhone® or other smartphones. A person simply holds the extended Quik Pod® and Quik Pod Mobile, with a smartphone attached, and properly framed photos and videos are captured without the help of strangers.

The [Quik Pod Mobile Smartphone Tripod Adapter](#) takes self-portrait photography to new heights. Weighing in at less than 2 ounces yet offering up to 25 lbs of grip power for a worry free hold on the smartphone. The Quik Pod Mobile holds all present and future iPhones, with similar dimensions, including 3G/3GS, 4, all iPod touch models, HTC EVO, Samsung, Blackberry and all popular smartphones. It adapts smartphones to a standard 1/4-inch x 20 tripod screw and with the use of available self-timer apps such as “Self Image” for face recognition and timer countdown allows the photographer to be easily and professionally included in shots. The unique adjustable thumbwheel width control allows many smartphone cases to remain attached for convenience.

The Quik Pod Mobile+ ([www.quikpod.com/iphone.asp](http://www.quikpod.com/iphone.asp)) converts to a tabletop tripod stand for handsfree video calls with Face Time and Skype Video. Great for use in home and business applications for convenient and precise smartphone positioning for remote surveillance of home, baby, dog or office using apps such as “iCam.” It’s also ideal for in-flight viewing of movies when placed on a tray table. A charger pass through slot allows the user’s charging cord to stay connected to the smartphone while in operation.

Prices for the Quik Pod Mobile start at \$19.95. Available online at [www.quikpod.com](http://www.quikpod.com), B&H Photo, J&R Computer World, Adorama and in Canada at Henrys. In Europe: Kaiser Fototechnik and Shakama Grupo Empresarial S.L.

The original Quik Pod ([www.quikpod.com/home.asp](http://www.quikpod.com/home.asp)) has appeared on Oprah’s O List and the Today Show and is covered under U.S. Patent 7,684,694. Available for point-and-shoot cameras, DSLR and smartphones.

The Quik Pod Mobile can be viewed in use at <http://www.youtube.com/watch?v=69xZ7LfgQVU> and images can be downloaded at <http://www.quikpod.com/Press.asp>. Press samples are available to accredited reporters.
