

e2b technologies Authorized to Resell SAP Business ByDesign – Anytime Collect Integration Planned for SAP's Cloud-based ERP Solutions

CHARDON, Ohio, May 5, 2011 (SEND2PRESS NEWSWIRE) – e2b technologies (www.e2btek.com) announced today that the company has become an SAP® Business ByDesign™ solution reseller authorized to market, sell and deploy SAP Business ByDesign – the first native cloud-based ERP accounting system from SAP.

“We’ve seen a growing interest in web-based ERP business software over the past few years,” said Bill Henslee, president, e2b technologies. “Cloud computing is the way of the future and the time is right for us to offer our customers and prospects a true, ground-up, cloud-based ERP accounting solution. SAP has the strongest brand in the industry and SAP Business ByDesign is built for manufacturers, distributors, and service companies which are the three industries that we serve.”

SAP Business ByDesign is incorporating Microsoft Silverlight front-end technology to allow a new level of user experience including simplified navigation, integration of mash-ups or interactive graphics. e2b specializes in cloud-based business software development using technologies like Microsoft Silverlight to provide businesses with both custom and standard cloud software like its Anytime Collect (www.anytimecollect.com) accounts receivable collections product available through its e2b software division.

“We are planning to integrate Anytime Collect with SAP Business ByDesign to extend SAP Business ByDesign with even more great features to help companies streamline their accounts receivable and collections processes,” Henslee said.

SAP Business ByDesign is a fully integrated business management solution that delivers the best of SAP software, on-demand. This solution is designed as best-fit for companies who want the benefits of large-scale business management applications without the costs of supporting the corresponding IT infrastructure. SAP Business ByDesign unifies multiple business operations and enables companies to implement preconfigured business processes in order to solve immediate problems. Accessed via a single user interface, SAP Business ByDesign delivers pre-configured software for business processes and supports managing financials, customer relationships, human resources, projects, procurement and the supply chain.

About e2b technologies:
