

Recover Data from Crashed System/Hard Drive with EASEUS Data Recovery Wizard WinPE!

NEW YORK CITY, N.Y., May 6, 2011 (SEND2PRESS NEWSWIRE) – [EASEUS Software](#), a leading provider of storage management, data backup and disaster recovery solutions for Windows, has released a new data recovery edition – EASEUS Data Recovery Wizard WinPE – which is the personal edition of EASEUS Data Recovery Wizard.

[EASEUS Data Recovery Wizard WinPE](#) has three main advantages over other data recovery software.

Data Recovery Wizard WinPE is designed for data recovery in case of any boot-up problems. It is based on bootable disk, so even when hard drives have crashed or an operating system failed to boot: [EASEUS data recovery bootable disk](#) can help get your data back.

With Data Recovery Wizard WinPE, there is no need for users to install the software and risk overwriting lost data. The least overwritten data, the more data can be recovered successfully.

Additionally, Data Recovery Wizard WinPE is useful for those who don't want to install more software on the computers to keep a clean and fast system.

"When my system can't boot, EASEUS recovers my data quickly. Recommend!" a customer said.

Compatible with Dynamic Disk and Linux File System, it will help computer users out of all data loss problems, recovering files emptied from the Recycle Bin, [format recovery](#), and data loss due to partition loss or damage, RAW disk, system crash, virus infection and other unknown reasons.

It also has many user-friendly features such as specify file types before file recovery and quickly locate the specific files to recover; export/import searching results and save them for continuous recovery; faster scan lost files by skipping bad sectors automatically.
