

Anytime Collect Credit and Collections Management Software Independently Certified for Intuit Quickbooks

CHARDON, Ohio, June 14, 2011 (SEND2PRESS NEWSWIRE) – e2b software (www.e2bsoft.com) announced today that its cloud-based Anytime Collect credit and collections management solution is now a Silver Certified Solution for Intuit QuickBooks. Anytime Collect has passed an independent QuickBooks Technical Review, administered by Intertek, to ensure that it meets the high quality standard of operation and compatibility expected by QuickBooks customers.

By virtue of receiving Silver Certified status, Anytime Collect is now available on the QuickBooks Marketplace (<http://marketplace.intuit.com>) available to QuickBooks users worldwide.

“Our goal is to make accounts receivable collections simple and affordable for smaller businesses. That’s why we went through the process of certifying Anytime Collect for Intuit QuickBooks,” said e2b software President Bill Henslee. “Anytime Collect is a cloud-based solution which is easy to deploy and requires virtually no IT resources. It is priced right for smaller companies and it’s easy to use with a Microsoft-centric design and wizard-driven communications tool.”

Smaller businesses often do not have a full time resource to focus on receivables management and accounts receivables collections. The Anytime Collect Communications Wizard helps companies manage collection processes and communications such as emails, phone calls, disputes, and other activities.

Anytime Collect helps businesses make accounts receivable collections easy while reducing days sales outstanding (DSO), minimizing bad debt write-offs, improving operating efficiency, decreasing credit financing costs, and improving cash forecasting – all with minimal IT requirements.

About e2b software:

e2b software (www.e2bsoft.com) develops, sells, and supports Software as a Service (SaaS), cloud-based business applications including Anytime Collect (www.anytimecollect.com) credit and collections management (CCM) software. Anytime Collect integrates with popular accounting software enabling finance professionals to reduce outstanding receivables, track collections activities, automate communications, forecast payments, and effectively manage disputes.
