

EaseUS Partition Master 9.0.0 Coming Soon While Beta is Ready for Testing Now!

NEW YORK CITY, N.Y., July 19, 2011 (SEND2PRESS NEWSWIRE) – [EaseUS Software](#), a leading provider of storage management, data backup and system disaster recovery solutions for Windows, announces today that its beta program of the latest version of EaseUS Partition Master 9.0.0 is ready for testers. EaseUS invites users to experience the new advanced features and this beta testing is valid until 30th July, 2011 and the full version will be released at the beginning of August.

[EaseUS Partition Master](#) is popular as an all-in-one partition management solution. This 9.0.0 version has been developed with more powerful functions to fully satisfy users' requests and manage the disk space of servers and PCs under Windows 2000/XP/Vista/7 and Windows Server 2000/2003/2008 (all versions), such as merge partitions, support dynamic disk, set command, etc.

EaseUS Partition Master new version also keeps all the previous comprehensive features of partition manager, such as resize/move partition, convert FAT to NTFS file system, convert logical/primary partitions to primary/logical, copy disk and partition, recover lost and deleted partitions, etc.

EaseUS Partition Master 9.0.0 comes with the following new functions:

- * Merge partitions – merge two adjacent hard disk partitions into a bigger one under Windows environment.
- * Dynamic disk support – resize (extend and shrink) dynamic volumes without data loss.
- * Convert basic disk to dynamic disk.
- * Set command – do partition manager operations with command.
- * Repair RAID-5 volume – repair RAID-5 after adding new hard disk.
- * Partition manager for Windows Home Server.
- * Wipe unallocated space.
- * Support up to 8 TB storage hard disk.
