

EaseUS(R) Presents the Most Cost-effective Server Backup Software, Only \$99 to Fully Protect Your Server

NEW YORK CITY, N.Y., Aug. 31, 2011 (SEND2PRESS NEWSWIRE) – EaseUS Software, a leading provider of data backup, disaster recovery and storage management solutions for the Windows environment, today presents a most cost-effective server backup solution to protect the Windows Server 2000/2003/2008 environment. This brand-new version – **EaseUS Todo Backup Standard Server** allows you to backup your server system, disk and data, now only \$99.

In a market where server backup traditionally costs quite a lot, EaseUS offers a product that provides all-in-one and powerful server backup and quick disaster restore while saving the IT costs of your company. It provides full, incremental and differential backup and quick disaster recovery in a single, affordable, and easy-to-use product. This allows organizations to reduce complexity, as well as computer maintenance, and management costs. EaseUS Todo Backup Standard Server is an integrated solution for the protection of system, files and folders, and other important data for Windows 2000, XP, Vista, Windows 7 and Windows Server 2000/2003/2008.

Key features in EaseUS Todo Backup Standard Server:

- * Schedule backup to protect the server system and all data automatically.
- * **Incremental** and **Differential backup** to save disk space and backup time.
- * One-click system backup and recovery.
- * Backup to a local or external hard drive, USB drive, CD/DVD or remote FTP server.
- * Install program without system rebooting.

“Many businesses are seeking for a cost-effective, easy-to-use as well as reliable backup software to avoid any potential disaster to their servers. That’s what EaseUS Todo Backup Standard Server possesses,” said Mr. Liu, CEO of EaseUS Software. “Through this new software, we expect business to benefit from simplified management and flexibility to get what they need.”
