

MiniTool Solution Ltd. announces Partition Wizard 7.0

VANCOUVER, B.C., Canada, Sept. 6, 2011 (SEND2PRESS NEWSWIRE) – MiniTool Solution Ltd. announces the immediate availability of Partition Wizard 7.0 release to customers. The version 7.0 releases include dynamic disk support and various bug fixes.

Version 7.0 upgrade is a milestone release for MiniTool Partition Wizard, now officially supporting dynamic disk.

“With over three million users worldwide, we are improving our [Partition Magic alternative](#) software to become one of the most popular disk management software solutions in the world,” says W. Ming, of MiniTool Solution Ltd.

Partition Wizard 7.0 new features include:

- * Support Dynamic Disk. New!
- * Support Simple, Spanned, Striped, Mirrored and RAID-5 volume. New!
- * Move/Resize dynamic disk volume without data loss. New!
- * Change cluster size for dynamic disk volume without data loss. New!
- * Create, delete and format dynamic volume. New!
- * Wipe dynamic volume for data security reason. New!
- * Check and repair file system error for dynamic volume. New!

MiniTool Partition Wizard 7.0 provides powerful, yet easy to use, software that allows home users and IT administrators to easily configure disk partitions and manage disk partitions. Partition Wizard provides a reliable, fast and secure way to manage a PC or Server disk partition.

Users can move partition, resize partition, extend partition, shrink partition, and convert dynamic disk to basic without data loss. It supports all hard disks including IDE, SATA, SCSI, USB external disks, FireWire disks and all level RAID configurations. Extra features include disk clone, drive copy and partition recovery.

For a complete feature list, please visit <http://www.partitionwizard.com/features.html> .
