

e2b technologies Ranked on Inc. Magazine 500/5000 List for Second Consecutive Year

CHARDON, Ohio, Sept. 13, 2011 (SEND2PRESS NEWSWIRE) – For the second consecutive year, e2b technologies (www.e2btek.com) was included in the prestigious Inc. 500/5000, listed as 3,047 overall and among the top 25 businesses in the Cleveland metropolitan area.

e2b technologies is a reseller of enterprise resources planning (ERP) and complementary business systems for distribution, manufacturing, and service companies. The company's Anytime Collect, credit and collections management (CCM) solution, and e2b 500 products are delivered through its e2b software division and global distribution channel. e2b calibration is a separate division providing ISO/IEC 17025 accredited calibration and repair services.

In what was described by Inc. Magazine as the "most sluggish three-year period since the Inc. 500 got its start back in 1982," e2b technologies showed a three year growth of 66%.

"We have invested in employing the best people in the industry," said e2b technologies President Lynne Henslee. "Their creativity, knowledge and excellence have not only contributed greatly to our success and our second appearance on this incredible list, but also to the success of our customers and business partners."

e2b technologies attributes its growth to recent additions to its product and services portfolio, having expanded its product offering to four major ERP products in the past four years while building up its own portfolio of business software application including Anytime Collect, and focusing its calibration services on specialized and under served market needs in the fields of avionics and mass flow.

The company's Inc. 5000 profile can be found at <http://www.inc.com/inc5000/profile/e2b-tekнологies> .
