

# EaseUS Partition Master 9.1 Offers Easier Ways to Upgrade System Disk and Extend Dynamic System Volume

NEW YORK CITY, N.Y., Sept. 14, 2011 (SEND2PRESS NEWSWIRE) – EaseUS Software, a leading provider of easy-to-use storage management, data recovery, data backup and disaster recovery solutions, today announces the new update of EaseUS Partition Master, a comprehensive partition management solution with non-destructive and advanced partition manager features that go beyond the basic functionality offered by Windows' own Disk Management tool. **Resizing dynamic volume**, especially resize system volume, which is limited in built-in Windows Disk Management, can be easily operated in **EaseUS Partition Master** now.

As dynamic disks provide superiority over basic disks, it is a justification that dynamic volumes are widely used. But the disk management under Windows is limited, such as users are not able to extend the system volume when it runs out of space if there is no unallocated space behind. As a multi-functional hard disk partition management solution, EaseUS Partition Master has enhanced its ability to extend the system volume without data loss as well as other dynamic volumes, even if there is no unallocated space behind it. It also offers an easy and direct way to reorganize partitions to optimize your disk space.

New EaseUS Partition Master keeps all the features of the previous version as well, such as resize/merge partitions, clone disk and partition, convert dynamic disk to basic disk, create bootable disk, etc.

## **New updated features available in EaseUS Partition Master:**

- \* **Resize dynamic system volumes** – extend or shrink system volume on dynamic disk easily.
- \* **Upgrade system disk** directly – clone system hard disk to a bigger one without reinstalling system and applications.

Mr. Liu, CEO of EaseUS, says: “No best software, but better software. We will strive to improve our product to satisfy users' requests constantly.”

## **Pricing and Availability:**

EaseUS Partition Master Professional for \$39.95 is available online at: <http://www.partition-tool.com/professional.htm> .

EaseUS Partition Master Server for \$159 is available online at: <http://www.partition-tool.com/easeus-partition-manager-server/> .
