

# POSPaper.com Heightens Customer Service through Additional Distribution Centers

JACKSONVILLE, Fla., Oct. 27, 2011 (SEND2PRESS NEWSWIRE) – The leading Internet provider of [paper rolls](#) and other point-of-sale (POS) supplies announced this week that it is opening two additional distribution centers in Dallas and Chicago. They are expected to open in mid-November of this year.

“Our goal is to enhance our already exceptional customer service,” says Mike Anderson, co-president, POSPaper.com. “And, by adding these distribution centers to an already comprehensive network, we plan to not only meet, but to exceed our customers’ expectations. In many cases, when a customer places an order on our web site, the product is delivered the next day. This sends a positive message to our customers that we are committed to order execution and service.”

Currently, POSPaper.com distributes [POS supplies](#) from three distribution centers in Florida, California and New Jersey. The additional distribution centers in Texas and Illinois will help to reduce transit time to many existing customers.

“Going from three distribution points to five will enable us to offer one to two-day shipping to more than 95 percent of the U.S. population,” adds Anderson.

And, since POSPaper.com has a stellar industry reputation, it enjoys a loyal customer base. That’s why POSpaper.com continues to reward its customers by improving its service. Its free shipping offers are second to none and customers can mix and match products. Its [thermal paper rolls](#) extend print-head life while enhancing image quality and its paper rolls have become the industry standard in the hospitality, retail, banking, gas station, credit card processing and medical industries.

POSPaper works with a wide range of businesses – “mom and pop” style operations to multi-unit hospitality and/or retail chains. For smaller businesses it provides discounts as deep as 40 to 50 percent less than prices at the big box stores for items such as bond and carbonless paper (similar to tray packs). And, larger qualifying companies with above average annual purchases may now enjoy a new wholesale pricing feature.

“We truly offer a unique customer service advantage,” says Anderson.

## **About POSPaper:**

POSPaper.com is approved and recommended by the POS industry’s leading printer manufacturers. Its thermal paper rolls, two-ply paper rolls and bond paper rolls are currently used in thousands of POS printers around the world.

Its warehouses carry a wide selection of paper rolls and [printer ribbons](#) as well as other popular items like credit card supplies, price tag guns, POS printers, bar code scanners, cash register ribbons, ATM and kiosk paper. The company also stocks popular products such as plastic shopping bags, receipt paper and more.
