

# e2b teknologies CEO Bill Henslee Ranked Third in Grand National Cross Country (GNCC) Motorcycle Championships

CHARDON, Ohio, Dec. 22, 2011 (SEND2PRESS NEWSWIRE) – e2b teknologies CEO Bill Henslee, an avid motorcycle and race enthusiast and CEO of ERP business software company e2b teknologies ([www.e2btek.com](http://www.e2btek.com)), finished third in the nation for the Grand National Cross Country (GNCC) Series Bike category in the Super Senior A Class. Henslee finished ninth overall nationally.

The GNCC Super Senior A Class is the expert senior class in the GNCC and includes hundreds of the best riders in the country in the 45-plus age category. Henslee rode his custom KTM bike in 11 of the 13 National races in 2011 to qualify for a national ranking recording a first in St. Clairsville, OH at Powerline Park in October. He finished second in two races and finished in the top five for his class in 9 races.

It's not often that motorcycles and ERP business software are mentioned in the same sentence but Bill's achievements on the race track parallel his success in business as both required commitment and a lot of hard work. Off the track his company, e2b teknologies, received many accolades in 2011 including a second Inc. magazine 500/5000 appearance, Accounting Today's VAR 100 and Technology Pacesetters awards, and two global partner awards: Gold Development Partner of the Year from Sage Software, and Customer Satisfaction Award from Epicor.

## **About GNCC:**

The AMA/ATVA-sanctioned Grand National Cross Country series is America's premier off-road racing series. The 13-round race series stretches through the eastern U.S., starting with the season-opener in Florida in March and concluding with the season-finale in Indiana in October.

The GNCC series is produced exclusively by Racer Productions, a Morgantown, West Virginia-based racing production company with over 30 years of experience in the industry. Cross-country racing is one of the most physically demanding sports in the world. The riders must navigate rugged terrain such as woods, mud, dirt, rocks and jumps for nearly three hours, while racing against the best talent in the world.

## **About e2b teknologies:**

e2b teknologies ([www.e2btek.com](http://www.e2btek.com)) provides ERP accounting software for distribution, manufacturing, and service companies.
