

The Financial Foundation Group Expands in Northern Colorado

FORT COLLINS, Colo., Dec. 27, 2011 (SEND2PRESS NEWSWIRE) – The past three years have been tremendous years of growth for the Fort Collins/Loveland branch of Financial Foundation Group, also known as FFG. This branch has helped hundreds of clients and developed many upper management staff members and the office was bursting at the seams. The FFG team had no choice but to expand into a location with more square footage. The office is still located in the same building, just down stairs in suite 150, so the location is still easily accessible to the public.

The Fort Collins Office is spearheaded by the company's youngest Executive Director, Aryn Goldman. Goldman is a Colorado native and graduated from Colorado State University in 2005. Her focus is to continue developing a family environment at the office that welcomes clients, and hardworking financial executives at the same time.

"With the focus, dedication, and passion the Loveland staff has for their clients, it is not surprising how they keep growing," Ken C. Perrin, Senior Partner at FFG says. "We are excited to keep expanding in the Northern Colorado area and making a difference in the lives of our clients."

The Financial Foundation Group has experienced a phenomenal growth rate over the past few years and they plan to continue the trend.

"When you combine excellent customer service with in-depth market knowledge," Perrin explains, "you have a win-win situation for employees and clients alike."

The Financial Foundation Group's mission is to become a nationwide leader in the financial services industry. Due to Financial Foundation Group's expansion, the Fort Collins office has employment opportunities seeking motivated individuals to advance rapidly through their management trainee program to help continue to grow the company.

As an independent financial services company, FFG's representatives are able to review each individual client's needs and offer a wide variety of different financial products to help achieve their clients' goals.

The knowledgeable staff at FFG has access to a wide array of investment products and can provide a combination of growth linked to the stock market indexes, while ensuring their money from market loss. FFG also assists their clients with tax advantaged wealth building strategies as well as many different options to protect their families through the use of life insurance.

The company's web site, www.FinancialFoundationGroup.com, has current market information and summaries for clients to review. It also provides breaking financial news and the top Associated Press headlines and stories.
