

Equation Technologies Certifies Additional Staff on Intacct as Part of Expanding Cloud Computing Strategy

TORONTO, Ontario, Feb. 21, 2012 (SEND2PRESS NEWSWIRE) – Equation Technologies (www.equationtech.com), a leading provider of software solutions for professional services, project-based businesses, corporate head offices, and nonprofit organizations, announced that they have completed training and received implementation certification for additional staff members on Intacct's cloud financial applications.

Most recently, Equation Technologies' Pat Wade and Bharti Meisuria completed certification requirements at Partner Implementation Training at Intacct headquarters in San Jose, California. Last year, Annette Balgord was the first from the organization to become certified for Intacct.

"We are increasingly being asked by our clients about the benefits of cloud-based accounting software," said Equation Technologies' president, Pat Wade. "With Intacct, we are able to offer the ease and convenience of cloud computing; powerful accounting features and reporting; key data at a glance through user-defined dashboards; and anytime anywhere connectivity."

"The certification of additional members of the Equation Technologies team is an indication of the firm's commitment to Intacct and the growing interest and enthusiasm for our cloud financial management and accounting software in Canada," said Intacct vice president of Channels Taylor Macdonald. "Equation Technologies is a recognized accounting technology leader, ranking among the Top 100 VARs in North America by Accounting Today and we are delighted to have them representing Intacct."

About Intacct:

Intacct is the cloud financial management company (<http://us.intacct.com>). Intacct applications are used by more than 5,000 organizations from startups to public companies and are designed to improve company performance and make finance more productive. The Intacct system includes accounting, contract management, revenue management, project and fund accounting, inventory management, purchasing, vendor management, financial consolidation and financial reporting applications, all delivered over the Internet via cloud computing.

About Equation Technologies:

Equation Technologies (<http://www.equationtech.com>) has been a leader in the implementation of ERP technology, systems integration and advanced custom development since 1985. Partnerships with proven technology leaders, including Intacct, Avecetra, Sage and Deltek allow Equation to help clients effectively manage finances, projects, people, constituent relationships, and assets.

The company has received awards including Accounting Today's "Technology Pacesetter," and the Sage Customer Excellence Award for its high level of client satisfaction.

Equation Technologies assists clients by providing solution design, product evaluation and selection, project implementation, education, and support. Equation offers advanced custom development for extending and enhancing the applications they support.
