

# Telovations and Resource Partners Group Announce Partnership – Expanding Telovations’ Services to Chicago and Mid-West

TAMPA, Fla., March 20, 2012 (SEND2PRESS NEWSWIRE) – Telovations Inc., a next generation Communications Company has signed an agreement with Resource Partners Group Inc. of Chicago to become a Channel Partner. Resource Partners Group will now be selling Telovations’ hosted services to enterprises throughout the United States.

“We are excited to have Resource Partners Group on board to help grow our presence. Dave Jacobs and the team bring a wealth of experience and knowledge, and we know they will do a great job of expanding the Telovations’ Brand,” said Sean Burke, Telovations’ senior vice president of sales and marketing.

“Dave’s commitment to innovation and presenting high value solutions to customers is a perfect fit for Telovations’ mission,” said Burke.

“Resource Partners Group was looking for a solution to provide our clients a next generation communications platform and we found the perfect partner with Telovations. Whether it’s call center, call recording, hosted voice or communications that haven’t been developed, Telovations’ flexibility and ability to bring products to our customers is exactly what we needed,” said Dave Jacobs, Resource Partners Group’s executive vice president.

Details of the partnership were not disclosed by the companies.

Based in Tampa, Florida, Telovations is a next generation communications company that innovates the way you communicate. Businesses today communicate through many different collaboration efforts, mobility solutions, and numerous applications. Telovations provides unified communication solutions that tie all of these together and allow your business to be more flexible, manageable, and scalable. Our approach, Communication-as-a-Service (CaaS) is an integrated delivery model of hosted business communications, allowing your company to leverage applications such as hosted voice, unified messaging, hosted call center, hosted recording, CRM integration, along with detailed analytics and statistics.
