

e2b technologies Named Gold Partner by Epicor for 2012

CHARDON, Ohio, May 22, 2012 (SEND2PRESS NEWSWIRE) – e2b technologies (www.e2btek.com) today announced that its e2b enterprise division has achieved Gold Partner status with Epicor for 2012. This title is awarded to companies who have met the highest annual revenue goals and certification requirements set forth by Epicor for their channel partners. e2b technologies was recognized as one of only three Epicor Gold Partners worldwide at the Epicor Momentum partner conference held earlier this month in Las Vegas.

“Achieving Gold status is an important distinction that reflects our partners’ experience, and expertise as it pertains to Epicor products. e2b’s performance over the past year places them among the elite in our partner ecosystem – they exemplify the commitment that always separates the best from the rest,” said Matt Bauer, Channel Director, Americas for Epicor.

This is the second award that e2b technologies has recently received from Epicor. Last year e2b won the Highest Customer Satisfaction Award acknowledging e2b’s highest average customer satisfaction score among Epicor reselling partners in the Americas. The award was not presented in 2012.

“Epicor 9’s deep product functionality and industry leading technology combined with e2b’s substantial distribution and manufacturing experience and award winning support were instrumental in achieving significant sales success in a challenging market,” said Ken Hilty, Vice President of Sales. “Epicor has been a great partner to work with, and we are proud to achieve Gold Partner status.”
