

CCE Selects EaseUS' Backup and System Migration Technologies for Its New Backup Software in Japan

NEW YORK CITY, N.Y., June 13, 2012 (SEND2PRESS NEWSWIRE) – EaseUS Software, a leading provider of backup, data recovery and storage management solutions for the Windows environment, is pleased to announce a strategic partnership with CCE, an IT corporation in Japan founded in 1988. This partnership enables CCE to address their customers' data security and disaster recovery needs with EaseUS's state-of-the-art technology.

EaseUS Software provides innovative data backup, disaster recovery and data recovery technologies that help CCE architect and deliver powerful, yet affordable solutions by offering Dr.Backup® to all its customers in Japan. What made CCE choose EaseUS as its partner is the system and data migration technology in EaseUS solutions that can migrate any Windows OS since XP to a completely different hardware configuration; or clone partition/disk to another for data backup via file- and sector-level clone.

EaseUS also offers other advanced technologies like partition management, advanced formatting hard drive, NTFS for non-Windows and so on. Get detailed information at: <http://www.easeus.com/technologies> .
