

70 Percent Off – EaseUS Technician Toolkit Bundle brings ALL-IN-ONE Solutions to IT Administrators and IT Service Providers

NEW YORK CITY, N.Y., June 20, 2012 (SEND2PRESS NEWSWIRE) – EaseUS Software, a leading provider of data backup and disaster recovery and storage management solutions for the Windows environment, presents 70 percent off its EaseUS Technician Toolkit Bundle this summer to address the need for a complete and comprehensive toolkit to manage hard drive, data recovery and ensure data security.

This toolkit bundle, including Todo Backup Technician, Partition Master Technician, Data Recovery Wizard Pro Unlimited and Disk Copy Technician, would cost you \$2,296 but now is only \$688.80.

Benefits are:

- * Greatly cut down your budget.
- * Decrease the downtime of your Server and maintain business continuity.
- * Bring IT Service Providers innovative technologies of data backup, data recovery and storage management.
- * Simplify IT administrators' routine job, improve work efficiency for data protection and produce better performance.
- * Unlimited usages for IT service provider; up to 10 machines usage for IT admins.
- * Others benefits like: free lifetime upgrades, preferential technical, after-sale service and flexible licensing model.

Detailed information: <http://www.easeus.com/technician-toolkit/> .

Potent and versatile, EaseUS Technician Toolkit Bundle promises IT Service Providers a profitable business and satisfying services to their customers. Enterprises' IT administrators can trust and rely on it to bring better performance to their computer machines, prepare backups in case of disaster and retrieve lost information back, thus being released from heavy workloads and monotonous job.

What PC WORLD said:

"I've yet to find the perfect partitioning program—one that's easy, reliable, versatile, non-destructive (meaning it can resize a partition without erasing it). It is extremely easy. You install it, launch it, and see exactly what to do.

"There's never been a better time to be in the market for a backup tool. These days, you need two types of backup: one for your files and documents, and the other for your system."
