Send2Press® Newswire

Field Services organizations are continually challenged to optimize their service network performance. Our new suite of solutions can help,” says Nate Baldwin, CEO of After, Inc.

“After, Inc. specializes in warranty analytics – gathering, integrating and analyzing large structured and unstructured warranty data sets, and developing models to forecast parts failures and equipment breakdowns before they happen. Our solutions have saved our manufacturing clients millions in

parts and labor costs, while dramatically improving customer satisfaction and loyalty. Our latest suite of optimization solutions for Field Service Medical organizations will be a game changer.”

After, Inc. is one of the key sponsors of the Field Services Medical Conference, with senior leaders of business development and data analytics attending to showcase their new suite of services.

If you plan on attending the conference, please visit After, Inc. in Booth 15.
