

American Banker Magazine Names Mortgage Capital Trading to Inaugural Best Places to Work in Fintech List

SAN DIEGO, Calif., May 8, 2018 (SEND2PRESS NEWSWIRE) – Mortgage Capital Trading, Inc. (MCT), a leading mortgage hedge advisory and secondary marketing software firm, announced that American Banker magazine named the company to its new Best Places to Work in Financial Technology list. MCT ranked number four out of only 20 companies that were honored.

Send2Press® Newswire

Fintech companies from across the country competed in an extensive two-part survey process that judges each organization's workplace policies, practices, philosophy, systems and demographics along with an in-depth employee survey that measures employee satisfaction. The combined scores of the complete process determined the nation's top fintech companies and the final rankings.

"We are thrilled to be recognized by American Banker as one of the top 20 fintech companies to work for in the industry," stated Curtis Richins, president at MCT. "MCT has grown significantly over the past few years, expanding our [capital](#) markets services with several new software solutions that have been instrumental in taking us to the next level. More than

anything, however, it is our people that have made us successful. Our entire company is very proud to receive this inaugural fintech award.”

Of note is that MCT recently won a 2018 Innovation Award from PROGRESS in Lending Association for helping move the mortgage industry toward digital loan trading on the secondary market with the rapid adoption and impact of its Bid Auction Manager™ (BAM). The company has also won Mortgage Technology magazine’s Release of the Year award for its MCTlive™! cloud-based capital markets software platform, and has been designated a Top 100 Tech provider by HousingWire magazine for being one of the most innovative technology companies in the U.S. housing economy.
