Attorney Bernard Walsh offered this comment about the National Trial Lawyers Summit, "In an environment where lobbyists and representatives from the powerful insurance industry continuously work to influence state legislatures around the United States to change laws in their favor, it is essential that attorneys and members of the civil justice system remain vigilant and committed to defending the rights of the people. By bringing together member attorneys from law firms around the country at the National Trial Lawyers Summit, we can better share ideas and experiences in an effort to improve courtroom skills and increase awareness to better maintain a strong legal system for all citizens."
