

# Auction at USS-POSCO Industries Offers Excess and Disused MRO Spares Opportunities in September Online Auction

PITTSBURG, Calif., Aug. 24, 2015 (SEND2PRESS NEWSWIRE) – USS-POSCO Industries (UPI), a large West Coast steel mill, has announced that it will be selling a variety of excess and disused MRO items through a second upcoming online auction. According to IAAS Worldwide who is presenting the auction, among the many items to be listed will be: large power transformers, bearings of all sizes and configurations, cylinders, a Alfa-Laval oil separator, a Durco pump, Midget King hoist parts, valves, gears, pipe and hose fittings, electrical parts, PLCs, PC Boards, and instrumentation.

The online auction will take place over a five-day period, beginning September 21, 2015 and continuing through September 25, 2015. It will be conducted on the [BidSpotter.com](http://BidSpotter.com) website by IAAS Worldwide.

Alan Loeser, Director of IAAS Worldwide auction house says that there are many items for the company or person looking for electrical parts, gears, couplings, bearings, valves and gearboxes. Loeser says that interested buyers of these items can bid online real time through the auction site Bidspotter ([www.bidspotter.com](http://www.bidspotter.com)).

As always, IAAS Worldwide terms of payment include cash, credit card, company or personal check with a bank letter of guarantee, cashier's check, or wire transfer. Organization and payment for removal of purchased items are fully the responsibility of the buyer. Visit [www.iaasworldwide.com](http://www.iaasworldwide.com) for complete terms of sale. There is a 16.5% buyer's premium online.

For open sale and auction inquiries visit <http://iaasworldwide.com/> or call Alan D. Loeser, IAAS Worldwide at 717-235-8299. PA License # AU003740R held by Alan D. Loeser Sr., member, National Auctioneers Association.

UPI is a world-class manufacturer of flat rolled steel that produces more than one million tons of cold rolled, galvanized and tin coils annually. UPI's Pittsburg, California facility has been producing steel for over 100 years and it currently maintains a workforce of approximately 750 people.
