About the Pompano Beach Redevelopment Agency (CRA)

A Community Redevelopment Agency (CRA) is a dependent district established by City government for the purpose of carrying out redevelopment activities that include reducing or eliminating blight, improving the economic health of an area, and encouraging public and private investments in a CRA district. The CRA is governed by State Statutes, Chapter 163, Part III. The Pompano Beach Community Redevelopment Agency is funded through Tax Increment Financing (TIF). The funds are collected as property values increase and a portion of that increase is captured by the Agency. TIF raises revenue for redevelopment efforts without raising taxes. Info:
