

# Biggest Skiing in America Makes a Bigger Online Presence

BIG SKY, Mont., Jan. 6, 2013 (SEND2PRESS NEWSWIRE) – With an average winter snowfall of 400+ inches, Big Sky, Montana is known for the Biggest Skiing in America – and with good reason. Earlier this year, Big Sky Resort merged with Moonlight Basin Resort. It's now truly the Biggest Skiing in America, with 5,750 acres of skiable terrain. Under one lift ticket, skiers and riders have access to three mountains.

Now, Big Sky is reaching out with a new website – [www.biggestskiinginamerica.com](http://www.biggestskiinginamerica.com) – to entice people from around the world to experience one of the most natural and pristine skiing environments in the world. Big Sky also offers many other outdoor activities such as dog sledding, ice skating, snowmobiling, zip-lining, sleigh rides and more.

Additionally, Yellowstone National Park is less than an hour away from Big Sky, and visitors can create unforgettable memories while they take in views of snowy landscapes, steaming geysers, dramatic canyons, and unmatched wildlife viewing.

“The website is an online gateway to planning a trip to one of the world’s most unspoiled mountain retreats. On the new site, a visitor can see the sheer scope of what is available for lodging, dining and entertainment. They can also download coupons and learn about travel specials available in Big Sky,” explains Kitty Clemens, Executive Director of the Big Sky Chamber of Commerce.
