

Business Architecture Training Series Coming to Dallas

DALLAS, Texas, Sept. 17, 2019 (SEND2PRESS NEWSWIRE) – [Business Architecture Associates \(BAA\)](#) a leading company in business architecture training established 2015, announced today its 5-day, “Business Architecture Boot Camp” training this Fall in Dallas, Texas.

Send2Press® Newswire

BAA is pleased to offer a comprehensive curriculum of business architecture training courses to help organizations initiate, mature and accelerate their business architecture practices and expedite the learning curve of practitioners. BAA partners, Whynde Kuehn and William Ulrich, will be instructing the upcoming Boot Camp series in [Dallas, Texas, September 30 – October 4, 2019](#).

The series includes courses on Business Architecture Immersion, Building the Foundational Business Architecture, Extending Business Architecture, Business Architecture / IT Architecture Alignment and Establishing and Maturing a Business Architecture Practice. This training series prepares attendees to practice the discipline and sit for the Certified Business Architect® (CBA®) exam.

BAA instructors are deeply knowledgeable in all aspects of business architecture. The Boot Camp has prepared past attendees to participate in and even lead business architecture practices, while concurrently readying them to achieve CBA® certification status, increasing their marketability along the way. Attendees will have the opportunity to bring in business architecture scenarios and solution-oriented challenges to the discussion. The instructors will work through these topics, creating a real-time learning experience.

BAA training advances the skills of practitioners at every level. According to Philip Dove, previous Head of Project Management & Business Analysis, AMP Insurance, “Whynde Kuehn and William Ulrich’s Business Architecture courses are excellent. I would highly recommend this course for all Business Architects no matter how much experience they think they have; these courses have something for everyone.”

All BAA public training sessions are now open for [Registration](#). For course descriptions and outlines, please view our [Curriculum](#) page:
