The order that pushed Capacity over the mark was, appropriately enough, shipped to a customer of Capacity's long-term cosmetics client, Tarte. Founded around the same time as Capacity by the iconic Maureen Kelly, [Tarte Cosmetics](#) has played a pivotal role in the fulfillment company's continued growth.

Operating across business sectors worth tens of billions of dollars in the U.S. alone, Capacity is home to some of the most vibrant brands in beauty, health, and lifestyle. Every order shipped fulfills a promise to delight the fans of these clients, which makes 20 million of them more than a milestone. For the team at Capacity, it literally means millions of satisfied customers.

“We owe this achievement – and indeed our longevity – to the remarkable success of our clients and the dedication of our employees,” says Thom Campbell, Chief Strategy Officer and co-founder of Capacity.

“From day one, when it was not uncommon to see team members spend nights on the office floor, to the precision-engineered fulfillment solutions we have in place today, Capacity has experienced a lot over those 20 million orders! Our clients know that our passionate, experienced team members are the last to touch their products before they reach an excited customer, which is why they put their brands in our hands.”
