

Capacity LLC Unveils a New Order Fulfillment Website That Delivers the Goods

NORTH BRUNSWICK, N.J., Jan. 26, 2016 (SEND2PRESS NEWSWIRE) – Capacity LLC, a trusted leader in order fulfillment, ecommerce, and electronic data interchange (EDI), has launched a brand new website. The site has been redesigned to make it easier to navigate and to help visitors quickly find the information they need to understand modern order fulfillment. The redesign also enhances the user experience on mobile and tablet devices, an important consideration as visitors use an increasingly wide variety of devices to interact with the company.

The new site is a response to significant growth in online traffic for the company and provides users with an environment that is more consistent with Capacity LLC's brand identity. Visitors also benefit from improved functionality with a wider range of available fulfillment services and technology capabilities.

"Capacity's corporate website has always been an important source of information for our clients and potential clients, but since we do not conduct any transactional business on the site it has traditionally occupied a secondary position in our minds," says Jeff Kaiden, Chief Executive Officer of Capacity LLC. "First: focus on operations and on the IT tools that our customers use every day to do business: our portal, our internal EDI processing engines, data warehousing, backups, e-commerce enabling technologies and functionality. Second: put up a website like every other fulfillment provider to have some web presence,"

Kaiden adds, "All that has changed! We ARE our web presence! Our new website indicates to the world our position, our strengths, our clientele, and our niche – SO LET'S SHOUT IT OUT INSTEAD OF WHISPERING. Welcome to CapacityLLC.com – let us know what you think."
