

CB Structures Ranks in Engineering News-Record for Specialty Contractors

POMPANO BEACH, Fla., Sept. 12, 2018 (SEND2PRESS NEWSWIRE) – Current Builders (currentbuilders.com) today announced its CB Structures division has been ranked by Engineering News-Record (ENR) as #7 in the Southeast Region for the Concrete Sector, #19 in Florida for Specialty Contractors and #45 in the Southeast Region for Specialty Contractors for 2018.

Send2Press® Newswire

Current Builders, based in Pompano Beach, has maintained a self-performing concrete structures division for more than 40 years.

“We are honored to once again be recognized by ENR,” said Michael Taylor, President of Current Builders. “Having this division allows us to provide developers with varied options that can allow for both cost and time savings. In addition to our broad tunnel from capabilities, we have also expanded our conventional concrete capabilities.

“With 20 million square feet of structures performed to date, we offer a thorough understanding of the systems aspects that are advantageous to all members of the development team including the owner, architect and/or engineer. CB Structures can design or assist in the design of – the most

cost-effective and sustainable structure determined to meet each project's specifications."

CB Structures was launched as an extension of Current Builders, providing services exclusively to the contracting entity. In 2004, the division was expanded and today employs more than 100 full-time team members. CB Structures now maintains its own client base and offers its talent and expertise to the region's development community including Gables Residential, Epoch Properties and Alliance Residential.

The division's areas of service/building systems include: tunnel form, conventional forming systems supported by reinforced masonry, post-tensioned slabs supported by flying forms, tilt-up construction and precast joist assemblies.
