

CenTex Hosting integrates Ezeelogin SSH Security Jump Server Solution to secure its server infrastructure

NEW YORK, N.Y., Oct. 3, 2018 (SEND2PRESS NEWSWIRE) – Ezeelogin, a secure SSH Jump server solution, today announced that it was chosen as the software for securing the server infrastructure in operation by CenTex Hosting, a provider that specializes in shared hosting , dedicated servers, virtual private servers, colocation, and managed services.

Send2Press® Newswire

CenTex Hosting is committed to providing an affordable, secure and scalable environment with 100-percent uptime across its network infrastructure.

“As our team expands, CenTex Hosting continues to balance growth and adaptation,” says Brady Huddleston, CEO and Founder of CenTex Hosting. “We are committed to shifting and adapting as the market changes, always looking for better tools while prioritizing and maintaining security procedures.”

Ezeelogin’s Jump solution with Secure SSH gives CenTex the ability to access all servers from one location, allowing staff to provide premium customer support that is efficient and secure.

“Centex Hosting wanted a bastion host for securing and streamlining SSH access to its Linux server and improve the speed in servicing its customers. We are indeed happy that Ezeelogin jump server software did meet their all their requirement and qualified as the jump server software of their choice,” said Sunjith P.S, CTO, Ezeelogin.
