

# Cgaga Software Launches New Fotosifter for Fast Photo Organizing and Editing

CHICAGO, Ill., Dec. 18, 2020 (SEND2PRESS NEWSWIRE) – Cgaga Software, the professional audio-visual software provider, today officially unveiled the latest edition of Fotosifter which offers the easy and smart solution to manage and edit photos. It has made significant improvements on its performance and user experience comparing to the previous version.

Send2Press® Newswire

With the face recognition technology, Fotosifter can automatically sort a large number of photos in a few minutes. There are four options to organize photos into categories: Face, Location, Time and Selection. Users can choose one or more options to start the photo organizing with one click. Particularly, the face recognition accuracy reaches 98%. In addition to the auto mode, users can tag photos, add favorites and give a rating to photos as they like. Furthermore, Fotosifter can detect and remove similar and duplicate photo with the advanced algorithm.

Photo editing is one highlight feature in Fotosifter. The Edit feature includes several tools like photo enhancement, decoration, and correction. Fotosifter allows users to easily modify and enhance pictures using new

filters, red eye remover, crop, vignette, and etc. Besides, Fotosifter offers the slideshow maker which is simple and powerful. With one-click approaches, a slideshow video can be created with stickers and music.

Also, Fotosifter can help better manage photos on other devices: cameras, smart phones (Android phone, iPhone, Windows phone, etc.), tablets, HDDs, SSDs, disks, USB flash drives, and more. Users can import their photos from these devices by connecting to the computer and organize them on the PC quickly.

“Fotosifter is a family-friendly software which is also a perfect choice for family members, photography beginners, office workers, travel lovers, teachers, students, and more,” said Cici Chen, Director at Cgaga Software. “It’s a light and handy tool using frontier technology to help a wide range of people dealing with masses of their photos. Fotosifter can save users a lot of time and energy on photo management and enhancement.”

Now, Fotosifter is [on sale](#) for Christmas. The lifetime edition enjoys free lifetime upgrades.
