

CoesterVMS Coming Soon to ReverseVision's Integrated Technology

SAN DIEGO, Calif., March 19, 2014 (SEND2PRESS NEWSWIRE) – ReverseVision, Inc. (<http://www.reversevision.com/>) today announced an agreement to add CoesterVMS's appraisal services (<http://www.coestervms.com/>) to RV Exchange – ReverseVision's Reverse Loan Origination System (RLOS) platform.

Reverse mortgage lenders use RV Exchange for the full lifecycle of the loan—from initial proposal through application, underwriting, closing and post-closing. When a lender needs to order an appraisal from Coester, they will be able to trigger the request with the click of a button. Not only will Coester receive the request electronically, but as each step of the appraisal process is completed, the loan record in RV Exchange will also be automatically updated.

"The automated process we are introducing with ReverseVision is one of the smartest workflow improvements a reverse lender can employ," said Brian Coester, CEO of CoesterVMS.

"Coester's reputation for providing an exceptional service is one of the best in the industry," said John Button, President and CEO of ReverseVision. "We are excited to empower our clients to easily order and track their appraisals from Coester directly in our platform."

"We love ReverseVision's platform, and have trusted Coester for our appraisal services for years," said Kenneth J. Klawans, President of iReverse Home Loan. "Being able to connect our appraisal orders and get real-time status back in RV Exchange is going to really help our team provide a higher level of customer service to our originators and borrowers."

The integrated service is expected to be available in April 2014.

About CoesterVMS:

CoesterVMS is a nationwide provider of valuation management technology and services. In 2012, the company launched Cloud Control, the industry's most customizable web-based valuation management technology and the first solution of its kind built on the award-winning platform of Salesforce.com. The company also offers valuation management services nationwide and specializes in providing high quality appraisal reports that comply with all industry guidelines and regulations. Headquartered in Rockville, Maryland, CoesterVMS was founded in 1970 as a local appraisal company and has since grown to a formidable nationwide force in the appraisal management segment.
