

CandyLipz : Consumers Line Up for New Lip Enlargement Product

SAN FRANCISCO, Calif., April 23, 2013 (SEND2PRESS NEWSWIRE) – CandyLipz LLC announces a new product – the Xtreme Lip-Shaper(R) System – that allows users to naturally control the appearance and size of their lips. It's no longer necessary to experience expensive and invasive injections to achieve more luscious and fuller lips.

Send2Press® Newswire

Product users can enhance their upper, lower or both lips, so the lip enhancement/enlargement system can create single or double-lobed lips. The Xtreme Lip-Shaper(R) System includes a lip enhancing pump which is compact, attractive and easy to use; in fact, it's designed to be used hands-free, making multi-tasking a breeze.

Lip enlarging pumps come in different sizes; the process takes two minutes and results last up to two hours. This [lip plumper](#) works by creating the perfect suction scenario. And, users may use the lip enlargement pump as many times during the day as they wish after an initial conditioning period of seven days.

"There is absolutely no other lip plumper of this kind which explains its high demand and waiting list," Thienna Ho, founder and inventor of the Xtreme Lip-Shaper(R) System, says. "The product will be available early this summer and is for males and females, 16 and older."

Additionally, all lip enhancement pump parts are eco-friendly, non-toxic and ultra-hypoallergenic.

"I always had beautiful lips until I was in my mid-30s when they began to lose their youthful appearance," Thienna says. "I consulted with plastic surgeons, had temporary lip injections and more. The process was not only expensive, but dissatisfying. I was pretty sure that I was not alone in my frustration, so I set out to create a product that would be effective, less expensive and easy to use."
