

DataNumen SQL Recovery 5.9: Maximum Repair and Multilingual Interface

NEW YORK, N.Y., May 25, 2021 (SEND2PRESS NEWSWIRE) – DataNumen, the manufacturer and vendor of cutting-edge recovery tools, announces the release of DataNumen SQL Recovery 5.9. In addition to the quick and exhaustive recovery of inaccessible SQL data files, the updated solution offers a multilingual interface with the support of English, Spanish, German, Italian, French, Portuguese, Korean, Japanese, and Simplified Chinese.

Send2Press® Newswire

Companies and individuals all over the world choose Microsoft SQL Server as their database management system, because it is user-friendly, scalable, and easy to configure. However, MDF and NDF files, which are used by MS SQL Server to store data, are prone to damage and corruption. To avoid the disruption of business processes, it is advisable to install DataNumen SQL Recovery and repair corrupt SQL Server files quickly and exhaustively.

DataNumen SQL Recovery is a time-tested solution that demonstrates the highest [recovery rate](#) in the market (92.6%, while the second-best tool reaches only 63.2%). It supports large files up to 16TB and performs batch processing, which is a great time-saver for those who need to repair multiple

files.

Besides, DataNumen SQL Recovery is known for its simple and clear interface. In the latest version 5.9, it has become even more user-friendly thanks to the support of nine more languages. If a user has problems with the English language, they can switch to French, Spanish, German, Portuguese, Italian, Korean, Japanese, or Simplified Chinese.

DataNumen SQL Recovery restores:

- MDF and NDF files created by any version of SQL Server
- both the data and the elements of table structure
- deleted entries, encrypted database files
- indexes, views, triggers, defaults, sparse columns, rules, scalar functions, table-valued functions, and stored procedures
- batches of MDF and NDF files
- large files up to 16TB
- NDF and MDF files on ISO images, virtual machine disks, virtual hard disks, etc.
