

# DesignEvo Brings Custom Logo Designs to Anyone with its new iPhone App

HONG KONG, March 27, 2018 (SEND2PRESS NEWSWIRE) – Online logo maker, DesignEvo, which helps anyone to customize a compelling, unique logo in minutes, brings out its iPhone version, DesignEvo 1.0, that allows users to create a custom logo design on their iOS device, PearlMountain announced today. With its launch, users can quickly select the preferred design from 3500+ templates and then customize it into professional logo designs with powerful editing tools and various art resources.

Send2Press® Newswire

DesignEvo 1.0 offers more than 3,500 logo templates covering 16 categories, which have been professionally created and can satisfy various needs. This version features a lot of stylish fonts and cool graphics provided for free to help users create more amazing logos. Without starting from scratch, people only need to choose a favorite logo template, insert a name for the project, and add bold and beautiful graphics – a stunning and exquisite logo design will be generated instantly.

This platform not only has added a library of templates, fonts, and other creative pluses, but also gives users an easy and fun-filled design experience with a set of powerful editing tools. Users can easily manipulate

the object with just a few swipes: nudge the object at will, rotate and resize the image freely, change the color the items and background, and undo and redo every step, etc. Meanwhile, the finished logos can be easily exported and shared on social media.

With an extremely easy-to-use interface and various editing tools, even those with little creative skills will be able to benefit from this user-friendly app. Users are allowed to design a range of logo designs for shops, software, companies, organizations and other uses, saving the costly expense of designers.

“We have paid much attention to the research and development of graphic design software for online and desktop versions in the past, but we’ve noticed an enormous growth and an increasing demand for mobile applications,” said Lin Xiao, CEO of PearlMountain.

He added, “Currently people prefer to access most aspects of their lives on mobile devices, so it must be exciting if people create graphic designs with our easy-to-use app on their devices. We are glad that we made it. I believe this iPhone application can help more graphic addicts create logos in an easy way, and also this is another substantial progress for our company.”
