#### **ABOUT DOMAINE CARNEROS:**

Founded in 1987, Domaine Carneros reflects the hallmark of its founder, Champagne Taittinger, in creating a vision of terroir-driven sparkling wine

and preserving the quality tenets of the traditional method production. Located entirely within the Carneros AVA, between Napa and Sonoma counties, the six estate vineyards total approximately 400 acres with 150 acres planted to Chardonnay, 250 acres planted to Pinot Noir, with the remaining acres currently in development. The winery focuses on making ultra-premium Carneros sparkling wines largely estate grown and limited production Pinot Noirs.

Domaine Carneros' château has become a landmark and symbol of the region. The architecture and interior design were inspired by the 18th century Château de la Marquetterie owned by Taittinger family in France's Champagne region. In March of this year, the San Francisco Chronicle named [Domaine Carneros](#) one of the top 25 Best Bay Area Wineries to Visit.

The winery also places a high value on preserving the environment and has been a leader with respect to a vast array of environmental undertakings. The roof of the pinot noir winery adjacent to the château hosts a solar array that was the largest on any winery in the world when it was installed and this year, a new state-of-the-art microgrid system will help the winery with 85% of its energy needs. The winery has a continued commitment to creating a lighter footprint on the earth. Two of its most recent environmental awards were the [California Green Medal](#) for Domaine Carneros' demonstration of "Smart Business through efficiencies, cost savings and innovation from implementing sustainable practices," and in 2020, the Napa Climate Now [Climate Champion](#) in the Business category.
