

DVDFab 2017 Easter Deals – Save up to 30-percent on Cinavia and Other Relevant Products

BEIJING, China, April 13, 2017 (SEND2PRESS NEWSWIRE) – On April 13, Fengtao Software, the industry leader in the field of DVD, Blu-ray and video backup solutions, reveals its secret plan for the 2017 Easter Holiday Celebration to the public, offering up to 30 percent discount on an array of selected products. The promotion starts today, and runs through May 8, 2017. Read on to dig more information.

Send2Press® Newswire

25 percent Discount Offered on DVDFab All-In-One Lifetime Gift:

Time fleets fast! Before we even realize, it already takes us to the April, and not so far ahead, we can almost hear the joyous footsteps of the Easter Bunny coming around the corner. Happy Easter Day! In celebration of this holy holiday, Fengtao Software has decided to offer 25 percent discount on its DVDFab All-In-One Lifetime Gift, which is the best-seller of all time covering its all-inclusive solutions to copying, burning, converting and authoring DVDs & Blu-rays.

It helps with converting videos between major formats, and [removing Cinavia](#) or other similar encryptions from “infected” multimedia contents. The special offer also comes with a \$20 Amazon Gift Card for free, with only one condition, which is to make the deal done before May 9, 2017. Don't be late

for that!

Save 30 percent to Remove Cinavia and Similar Encryptions:

In order to prevent movie disc owners from copying and ripping their purchased properties, movie studios never stop trying. Cinavia is one of the most successful efforts they come out with, which is an anti-copy technology applied on DVD and Blu-ray movie discs, and the popular home DVD and Blu-ray playback devices.

To achieve the goal of backup-resistant, Cinavia technology plants some kind of watermarks into the audio tracks of the DVDs and Blu-rays, so that if movie disc owners copy and burn the original discs to blank discs and then try to play back the backups on Cinavia-equipped playback devices, the playback will halt and audio mute when it reaches 20 minutes.

However, with the world's first complete and permanent Cinavia removal solution from Fengtao Software, they can now get completely rid of this kind of watermark. The removal solution is implemented on the DVD Cinavia Removal and Blu-ray Cinavia Removal, and the former is integrated in its DVD copy software and the latter in the Blu-ray copy software, Blu-ray ripper software and the Blu-ray to DVD converter software.

Similar to the Cinavia technology, there is also another anti-backup technology which Fengtao Software also has a solution to, and in celebration of this Easter Day, all these products are offered with 30 percent discount. Remember the deadline is May 8, never miss.
