Enjoy 30 percent Deep Discount on Cinavia Related Products:

Cinavia is an anti-copy technology invented and implemented by major movie studios on DVD and Blu-ray releases and all the mainstream home DVD and Blu-ray players. It works by planting the watermark in the audio tracks of the "infected" DVDs and Blu-rays to prevent movie consumers from making backup copies of the original discs even they have legally bought those discs. Even customers make copies and play them on the Cinavia enabled playback devices, the audio will mute and video halt when the playback reaches 20 minutes.

Now Fengtao Software has the world's first complete and permanent Cinavia removal solution that helps its customers get rid of the annoying watermark once and for all. The removal solution consists of two products, the DVD Cinavia Removal and Blu-ray Cinavia Removal. The former is integrated in its DVD copy software and the latter in the Blu-ray copy software, [Blu-ray ripper software](#) and the Blu-ray to DVD converter software.

During the Spring Break time, all these Cinavia relevant products are being offered at 30 percent off. Do take fast actions if the deals interest you, as the promotion is scheduled to close at the end of April 5.
