

EaseUS Announces the New Release of MobiSaver 6.5

NEW YORK, N.Y., Sept. 19, 2016 (SEND2PRESS NEWSWIRE) – EaseUS takes the opportunity now that iOS 10 has just been launched in September with the new iPhone 7 and iPhone 7 Plus to announce the new update of MobiSaver 6.5. This new EaseUS 6.5 iPhone data recovery software enhances file recovery competence from iCloud backup and iTunes backup – even encrypted one.

Send2Press® Newswire

Decades of research and development displays EaseUS great improvement on [iPhone data recovery](#) capability under different data loss situations that are most commonly due to: factory resetting, failed iOS system upgrade, virus attack, accidental deletion, unexpected operation errors and other reasons.

Fully compatible with the brand new Apple iPhone 7, iPhone 7 Plus and iOS 10.0 that is more personal, powerful and playful, EaseUS MobiSaver 6.5 saves lost or deleted messages, WhatsApp history, contacts, photos, video, notes, call history, calendar, reminder, Safari bookmarks, timeline and more in simple steps when iOS devices are automatically connected.

In particular, data security must always come first especially for easy OTA upgrade to iOS 10.0 (over-the-air technology). The practice of insurance before installing new iOS 10.0 system is to backup important data or files to iCloud or iTunes that ensures the possibility to restore everything directly from backups.

Meanwhile, it's necessary to fill in iTunes password only once to make EaseUS MobiSaver start scanning for lost data from encrypted iTunes until the data recovery program stops working with password eliminated for personal information safety. Besides, option is available for EaseUS 6.5 iOS data recovery software to choose iTunes files on any iOS devices.

All recoverable files are able to be previewed in order to ensure recovery effectiveness. Also [EaseUS MobiSaver](#) makes it possible to save recovered data like messages into specific format, like .csv, .vcf or .html usual format. The new 6.5 MobiSaver update takes further use of new features displayed in iOS 10 and new Apple devices to make great progress in mobile phone data recovery field.

EaseUS MobiSaver 6.5 is now available at:
