

EaseUS New 9.9 Mac Hard Drive Recovery Solution Comes with Bootable Media Available for Any Emergency in Data Recovery

NEW YORK, N.Y., April 6, 2016 (SEND2PRESS NEWSWIRE) – EaseUS has announced that its new Data Recovery Wizard for Mac 9.9 continues to innovate in the Mac data recovery software field with Bootable Media available now when OS fails to start. Besides, lost files can be restored directly from Time Machine backup drive in time. The RAW recovery in 9.9 version recognizes more file types exactly and speeds up the whole procedure.

After a long period research and public survey, EaseUS finds out that 30% users who take [data recovery on Mac](#) get caught by OS bootable trouble in which system is unable to boot up and there is no response on Mac OS X. EaseUS Data Recovery Wizard Bootable Media for Mac makes it remarkably simple to recover all lost files even when system crash occurs and OS X cannot be launched.

At the same time, Data Recovery Wizard for Mac with Bootable Media, which only USB disk is capable of now, together takes on data recovery course in a safer way especially for those lost files stored on system disk, because that it protects original data from any further operations which may cause more severe damages.

Likewise, Mac data recovery from Time Machine backup drive in this 9.9 edition attracts much public attention for its ease-to-use and effectiveness. Except for restoring deleted files from Trash, from formatted hard drive or lost partition, setting up Time Machine backup drive is pretty helpful as a rapid rescue matter when data loss happens. Backing up crucial photos, documents, video, music, audio and emails regularly to Time Machine in advance allows to directly get all lost data back in time effortlessly and restore Mac immediately.

Under RAW recovery that is usually used for serious data loss situations, more file types can be retrieved exactly. Also data recoverability and scanning speed increase to a large extent. This in-depth recovery progress contributes to the repair success.

EaseUS [Mac hard drive recovery](#) solution is an easy way to settle down complicated data recovery project that is accessible for different data loss cases. Intuitive UI design of the 9.9 edition leads all restoring operation go more smoothly where less professional IT skill is enough.
