

EaseUS Provides Comprehensive and Cost-effective Backup and Disaster Recovery Solution for Business

NEW YORK CITY, N.Y., Aug. 7, 2013 (SEND2PRESS NEWSWIRE) – EaseUS Software, a leading software developer of backup and security software solutions with ten years developing experience, offers a ONE STOP backup and recovery strategy for business users with significant cost and time savings.

Solution 1: Efficient system and data backup and recovery solution:

With EaseUS award winning software – EaseUS Todo Backup, your data and system are completely protected and you can rest with a full peace of mind.

- * Continuous backup, network backup and system backup.
- * SQL/Exchange Server database backup and recovery.
- * Recovery to dissimilar hardware for easy system migration.
- * Tape, NAS, dynamic and GPT backup.
- * Built-in bootable disk for disaster recovery.
- * System backup/restore & deployment via PXE.

Solution 2: Centrally control backup plans for multiple clients:

Central Management Console saves time and cost for IT administrators to control all the machines in the company or department.

- * Create system or partition backup policy and apply to desired destination.
- * Deploy schedule backup plans for the PCs or Servers.
- * Completely backup management to optimize deployment process.
- * Reports offer the details of policies and policies status.

Solution 3: Reliable PC and Server systems deploy strategy:

EaseUS Deploy Manager provides reliable PCs and Servers system deployment solution for SMBs, organizations, schools and government agencies, etc.

- * Deploy master image to multiple PCs/Servers.
- * Deploy groups of machines with different system images or settings.
- * Built-in universal deploy ensures new systems boot up correctly.
- * Remotely power on or wake up computers to deploy via the network.
