

# EaseUS Todo Backup 8.0 Introduces New Backup Technology: Faster Backup and Smaller Storage

NEW YORK CITY, N.Y., Dec. 18, 2014 (SEND2PRESS NEWSWIRE) – EaseUS Software ([www.todo-backup.com](http://www.todo-backup.com)), a leader in data backup and protection, today announces the release of EaseUS Todo Backup 8.0, a complete data backup and recovery solution with faster speed and files exclusion function.

Breakthroughs in this new version are mainly embodied in the adoption of newly backup technology to save users' time during the backup. A testing report from our engineers indicates EaseUS Todo Backup 8.0 speeds up 30 percent – 50 percent depends on the backup situation. Another highlight in 8.0 is the file exclusion feature which allows users to filter the non-necessary files like system files or other files/folders that don't want to backup to reduce the image size.

Besides, EaseUS's engineers also improve the creating process and compatibility of WinPE in Todo Backup 8.0. No need to install AIK/WAIK component during the WinPE creation process while better support for UEFI system and later system windows 7/8/8.1.

New features in EaseUS Todo Backup 8.0 include:

1. Utilize advanced backup technology: Faster backup and restore
2. Add file/folders exclusion feature: Decrease image size and save storage space.
3. Optimize WinPE bootable media creation process: More efficient, higher compatibility.

So far, over 6,000,000 home and business users' computer is under protection with EaseUS Todo Backup. In the meantime, EaseUS Todo Backup is awarded by the editors from Toptenreviews, PCworld, Lifehacker, etc. More and more people prefer to choose Todo Backup because it is simple, reliable, flexible and cost-effective. The full featured backup and clone software can backup system, files, Outlook email, clone partition/disk, restore system to dissimilar hardware, etc.
