

Edupoint's Growth in Arizona Continues with Creighton School District's Selection of Synergy

PHOENIX, Ariz., March 30, 2017 (SEND2PRESS NEWSWIRE) – Edupoint® Educational Systems, creator of the industry-leading Synergy® Education Platform for K-12 student information and learning management, has been selected by Creighton School District to implement the company's Synergy Student Information System – replacing Infinite Campus®.

Send2Press® Newswire

The district's Synergy solution will include the fully-integrated Synergy Online Registration, Synergy Special Education, TeacherVUE® Portal With Gradebook, ParentVUE® and StudentVUE® portals, and private cloud hosting. Creighton School District serves approximately 6,500 students across nine schools.

"When the Creighton School District was looking to change their student information system, we had three key requirements: It had to be customizable, user friendly, and come with high quality customer service," said Jennifer Dodson, Director of Information Services & Technology for the district. "During our search, we found Synergy to provide all that and more. Giving our parents access to more of their students' data online will be a game changer for our district. We are excited to forge this partnership and give our teachers and parents access to this intuitive program."

“The Creighton School District wanted a powerful student information system that would be easy to use, as well as a vendor partner relationship it could count on,” said Rob Wilson, President and Chief Innovation Officer for Edupoint. “We are pleased that Creighton selected Edupoint at a trusted partner, and our Synergy solution as the best fit for its student data management needs. We look forward to working with the district to help it support student growth and achieve district education goals for many years to come.”

About Edupoint Educational Systems:

For over thirty years, the leadership of Edupoint Educational Systems has provided well-designed, technologically-advanced student data management systems that empower all K-12 stakeholders with the tools they need to improve student achievement.

The fully-integrated Synergy® Education Platform includes Synergy® SIS, the most powerful K-12 student information system available today, Synergy® LMS, an all-in-one learning and assessment platform, and Synergy® SE, a comprehensive special education data management system. Thousands of schools nationwide choose the Synergy Education Platform to support more than 3.5 million students.
