

Edupoint's Growth in Maryland Continues with Charles County Public Schools' Selection of Synergy

MESA, Ariz., July 26, 2016 (SEND2PRESS NEWSWIRE) – Edupoint® Educational Systems, creator of the industry-leading Synergy® Education Platform for K-12 student information, learning management and assessment has been selected by Charles County Public Schools, one of the fastest growing school systems in the state of Maryland, to implement the company's Synergy Student Information System. Seeking to replace a legacy solution that had been in place for over 30 years, the district needed a modern solution that would provide real-time access to student and instructional data for all education stakeholders to help improve learning outcomes.

Send2Press® Newswire

Charles County Public Schools serves over 26,000 students across 36 campuses in Southern Maryland. In searching for a new student information system, the district evaluated five nationally-recognized solutions and selected Synergy based on its powerful feature set and ability to provide a customizable solution with innovative family engagement portals, intuitive scheduling tools, and robust analytics and reporting capabilities. By uniting previously unconnected K-12 data management functions within a single fully-integrated solution, Synergy provides comprehensive functionality with a lower total cost of ownership through fewer licenses, fewer vendors, and a single point of contact for support and training.

“Charles County Public Schools needed a modern solution that would provide them timely and flexible access to student and instructional data and eliminate reliance on third-party solutions, and we’re proud to say Synergy was able to meet those requirements,” says Rob Wilson, Edupoint’s President and Chief Innovation Officer. “Synergy’s single database allows the district to enter data just once and have it available in real-time throughout the entire Synergy Education Platform, which maximizes efficiency and greatly simplifies student information management from registration through graduation. We welcome Charles County Public Schools to the Synergy family, and we look forward to building our partnership with them and to continued growth throughout Maryland.”

With Charles County Public Schools’ selection of Synergy, Edupoint now supports over 100,000 students throughout Maryland. The district is currently finalizing their data migration timeline with plans to go live with Synergy in July 2017.

About Edupoint Educational Systems:

For more than thirty years, the leadership of Edupoint Educational Systems has provided well designed, technologically advanced student data management systems that empower all K-12 stakeholders with the tools they need to improve student achievement. The Synergy Education Platform is a suite of integrated solutions that includes Synergy SIS, the most powerful K-12 student information system available today, Synergy LMS, an all-in-one learning and assessment platform, and Synergy Special Education, a comprehensive special education data management system.

More than a data management tool, Synergy is a collaborative environment that facilitates improved communication between educators, administrators, parents and students resulting in better instructional decisions at all levels. To learn why thousands of schools across the country use the Synergy Education Platform to manage more than 3.5 million students, visit <http://www.edupoint.com/>.
